Purchase Price: _____ Deposit Pd. _____ Balance Due: _____

Breeder, in good faith at the time of sale, agrees to provide a kitten of sound health that has been loved and well cared for. However, breeder cannot be responsible for anything the kitten may encounter or contract once it leaves breeder's care. Therefore, once a kitten leaves our cattery, buyer agrees that all sales are final. To validate health guarantee, buyer must have kitten examined by a licensed veterinarian within 7 business days of the date of purchase, and if for any reason the vet finds a life threatening genetic or congenital defect or illness, buyer may return the kitten within 24 hours of that examination along with written documentation from the licensed veterinarian attesting to the defect or illness of the kitten, (which includes the clinic name, address and phone number). As our guarantee to you, we will do our best to provide you with another kitten, within in a reasonable amount of time, at no additional charge. In the event of a claim for replacement kitten, breeder reserves the right to have the said "unhealthy" kitten examined by a vet of its own choosing, and to have that vet review any and all health records from buyer's vet. At no time will the breeder accept any responsibility for veterinary bills for above referenced kitten, once it leaves our cattery. Please note that crossed eyes and kinked tails are genetic traits of the Siamese breed, and cause no health threats to your kitten.

Buyer agrees that kitten will not be used for breeding purposes, and further, that kitten will be spayed or neutered by six months of age. Upon receipt of written documentation from a licensed veterinarian certifying that kitten has been altered, breeder agrees to send kitten's registration papers to buyer. This can be easily done by taking a photo of the vet bill confirming the spay or neuter. There is a free app for smart phones called Cam Scanner that is great for taking photos of things like this, and creates a pdf that you can simply attach and email to us for confirmation.

Buyer further agrees to keep kitten strictly indoors, and to provide the kitten with a safe, healthy, loving, and caring environment for the duration of kitten's life. Buyer also acknowledges that this agreement does not cover any kitten that has been injured, abused, or neglected; or in the case that kitten care or ownership has been transferred to someone other than above referenced buyer. If at any time breeder feels that the sale of a kitten will not be in kitten's best interest, breeder reserves the right to refuse the sale.
