

SIAMESE GENETICS CHART

If you are interested in what the possibilities are for potential point colors when certain color parents are mated, please review the chart below. The first two columns are what the Siamese genetic standards tell us, and the third column I have inserted as my personal experience with Siamese breeding. It is actually quite interesting!!!

| COLOR OF PARENTS MATED | OFFSPRING POSSIBLE | MY EXPERIENCE |
|-------------------------------|------------------------------|------------------------------------|
| Seal x Seal | Seal, Blue, Chocolate, Lilac | Seals & Blues |
| Seal x Blue | Seal, Blue, Chocolate, Lilac | Seals & Blues |
| Seal x Chocolate | Seal, Blue, Chocolate, Lilac | Mostly Seals & Blues, occas. choc. |
| Seal x Lilac | Seal, Blue, Chocolate, Lilac | <i>Never had this mating</i> |
| | | |
| Blue x Blue | Blue, Lilac | <i>Never had this mating</i> |
| Blue x Chocolate | Seal, Blue, Chocolate, Lilac | Seal, Blue, Chocolate, Lilac |
| Blue x Lilac | Blue, Lilac | Blue, Lilac |
| | | |
| Chocolate x Chocolate | Chocolate, Lilac | Chocolate, Lilac |
| Chocolate x Lilac | Chocolate, Lilac | Chocolate, Lilac |
| | | |
| Lilac x Lilac | Lilac | <i>Never had this mating</i> |
